

Spring semester will offer its first of the year STEAM Club! Students will have an opportunity to explore and further their knowledge in science, technology, engineering, arts and math while collaborating with their peers. We will be designing, creating, and experimenting through hands-on activities and science experiments.

The club will be open to all intermediate grades (2nd-5th grade students) from Tuesday, January 16th through Tuesday, March 6th. The club will meet after school on Tuesdays from 3:00-4:00pm. Students who are not picked up by 4:05pm will be taken to Aftercare and a guardian will need to sign them out.

The cost of the club will be \$100 per child. This cost covers the entire session and all supplies/materials needed to run the club. Please make checks payable to **Michelle Cheevers** and return the registration form below to your child's classroom teacher by Friday, January 12th. Any child who enrolls after the start date will pay the same fee.

Your child's safety is my number one priority. Many of our science experiments require safety goggles (provided in the club) and strict safety rules/guidelines. Therefore, students who fail to follow our safety rules will be removed from the club and will not be reimbursed. Thank you for your understanding and cooperation.

If you have any further questions, please contact Michelle Cheevers at mcheevers@bbschl.com.

Student name: _____ Teacher: _____
